LIST OF CONTENTS

Number 1

Martin Frost, Brian Linneker and **Nigel Spence** — 1 — The energy consumption implications of changing work-travel in London, Birmingham and Manchester: 1981 and 1991

Daniel P. Sullivan and **Rod J. Troutbeck** — 21 — An exponential relationship for the proportion of free vehicles on arterial roads

Patricia L. Mokhtarian and **Ilan Salomon** — 35 — Modeling the desire to telecommute: the importance of attitudinal factors in behavioral models

51 — Recent Doctoral Dissertations

89 — Erratum

I — Forthcoming Papers

Number 2

Linda K. Nozick and **Edward K. Morlok** — 91 — A model for medium-term operations planning in an intermodal rail–truck service

Patrick Niérat — 109 — Market area of rail–truck terminals: pertinence of the spatial theory

Anthony Chin and **Peter Smith** — 129 — Automobile ownership and government policy: the economics of Singapore's vehicle quota scheme

Wei-Hua Lin and **Carlos F. Daganzo** — 141 — A simple detection scheme for delay-inducing freeway incidents

J. P. Silcock — 157 — Designing signal-controlled junctions for group-based operation

Book Reviews

Kenneth Button — 175 — *Autos, Smog and Pollution Control: The Politics of Air Quality Management in California*

Transportation Planning on Trial: The Clean Air Act and Travel Forecasting

Craig Poulenez Donovan 176 *Transport Concepts in European Cities*

Gordon J. Fielding 178 *Urban Mass Transportation Planning*

179 Brief Note

I Forthcoming Papers

Number 3

Asad J. Khattak and **André de Palma** 181 The impact of adverse weather conditions on the propensity to change travel decisions: a survey of Brussels commuters

Mark Hansen and **Yuanlin Huang** 205 Road supply and traffic in California urban areas

Thomas F. Golob, Jane Torous, Mark Bradley, David Brownstone, Soheila Soltani Crane and **David S. Bunch** 219 Commercial fleet demand for alternative-fuel vehicles in California

Emmanuel Chéron and **Michel Zins** 235 Electric vehicle purchasing intentions: the concern over battery charge duration

Eduardo A. Vasconcellos 245 The demand for cars in developing countries

Peter Gordon, Harry W. Richardson and **Yu-Chun Liao** 259 A note on the travel speeds debate

I Forthcoming Papers

Number 4

Andrew R. Goetz and **Joseph S. Szyliowicz** 263 Revisiting transportation planning and decision making theory: the case of Denver International Airport

Indushobha N. Chengalur-Smith, Donald P. Ballou and **Harold L. Pazer** 281 Modeling the costs of bridge rehabilitation

Caroline J. Rodier and **Robert A. Johnston** 295 Incentives for local governments to implement travel demand management measures

Robert Cervero and **John Landis** 309 Twenty years of the Bay Area Rapid Transit system: land use and development impacts

L. Ferreira 335 Planning Australian freight rail operations: an overview

Book Reviews

James F. Campbell 349 *Gravity Models of Spatial Interaction Behavior. (Advances in Spatial and Network Economics)*

Bruce N. Janson 350 *Transportation Systems: Theory and Application of Advanced Technology. A Postprint Volume from the IFAC Symposium, Tianjin, People's Republic of China, 24–26 August, 1994*

I Forthcoming Papers

Number 5

Erik Ferguson 353 Privatization as choice probability, policy process and program outcome: the case of transportation management associations

Jun Ma and **Konstadinos G. Goulias** 365 Systematic self-selection and sample weight creation in panel surveys: the Puget Sound Transportation Panel case

Claude M. Penchina 379 Braess paradox: maximum penalty in a minimal critical network

Kwaku Agyemang-Duah and **Fred L. Hall** 389 Spatial transferability of an ordered response model of trip generation

Hokey Min, Emanuel Melachrinoudis and **Xing Wu** 403 Dynamic expansion and location of an airport: a multiple objective approach

I Thanks to Reviewers

III Forthcoming Papers

Number 6

Pnina O. Plaut 419 Transportation-communications relationships in industry

David A. Hensher 431 A practical approach to identifying the market potential for high speed rail: a case study in the Sydney-Canberra corridor

Albert Willem Veenstra and **Philip Hans Franses** 447 A co-integration approach to forecasting freight rates in the dry bulk shipping sector

Ian Savage 459 Scale economies in United States rail transit systems

Randolph W. Hall 475 Effect of capacity concentration on highway corridor performance

I Forthcoming Papers
